

December 8th 2016 school community council minutes in the school conference room at 4 PM.

Attendees: LeeAnn Evans, Ms. Robison, Tamara Stokes, Amy Jex, Jennifer, Micki Rogan, Ms. Hogan.

Excused: Maria

Data:

--we have had 25 incidents since the beginning of school. 18 of those were in October. Second grade male boys are in the highest need for intervention. Dr. Rubic is our psychologist and is helping quite a bit there.

--January is the next reading benchmark. We have an additional land trust aid in reading who also does one set of math instruction. Out-loud reading is the most successful reading intervention tool noticed so far. Comprehension is our focus. January 12 is Dibels/DORF testing for kindergarten and first grade and January 18 is testing for 2nd- 5th.

Our goal met incentive plan is to have the DJs come during lunch and provide paper on the tables with crayons on January 27. LeeAnn will confirm the date with the DJs.

Digital citizenship:

--December 7 was the school assembly and there will also be a classroom follow up in December. ----Early February is white ribbon week. Mr. Price will be asked to create a flyer (or space for art) for students to take home, discuss as a family and then return for a small reward that LeeAnn will research and purchase.

SNAP Plan. The plan is due in January. Walking maps need to be approved by parents. We are to ask community parents if they're having any issues with the snap walking plan.

Utah SCC training is an optional event. Our district provides specific training.

Adjourned at 4:58 PM.

Next meeting is January 5 at 4 PM.
