Behavior: 29 incidents. Lately less incidents are playground, more in school. Playworks is

Over 20,000 Cub Credit cards handed out so far. Technicians give class cards during BBs.

Art projects rewards—kids are excited

Most all students who made benchmark in fall stayed in winter

Huge jumps from those who began below benchmark to making benchmark. Walking to read is
making a huge difference.

Digital Citizenship: nothing right now, another message next month

Trustlands Goals:

Do we continue to fund aides? We need this to maintain Walking to Read. Unanimous yes.

Mindy is working with the BLT to determine if the models we are using are the best. Is SRI
better for upper grades rather than fluency? Do we want to go one step further? K-2 there is
no other data, but beyond that, there might be other tests that might show more detailed data
that has more impact. It won't add testing, just what tests we are using to measure
improvement.

March meeting we will approve goals. Mindy will send some emails between now and then.
