Open Issues

Discussion regarding the behavior data is being redone to give a more accurate baseline. There were 11 incidents.

New Business

A change in attitude and behavior is being address on the playground to include conflict resolution with student to student to make the outcome more proactive instead of reactive.

Academic data was presented by Camie Lloyd. Math computation scores are proficient. The DORF scores from fall to spring are very good in all grades, teachers are working hard as teams, and proficiency is going very well in all areas. Over all we had great gains school wide in SRI testing, which was attributed to our walking to read program. The number of our students that were below proficient and took the DORF dropped in half in some of our grades.

The school has received a “Grade” of B for 2017. There was a growth of 50 students (moving in or moving out).

It was proposed and agreed that \$500 of the cell tower budget could be used to get help with the school website so there is better communication with parents.

The CSD Bond Information has been posted and placed at the back to school night, flyers are located in the front office, and emails sent to available parents.

Future SCC meetings will be held on the 2nd Wednesday of the month at 4 p.m.

The Safe Technology and Digital Citizenship was presented by Mrs. Draper. Handouts with detailed information of what is required of teachers and students were passed out, and approved by all members of the SCC. Parents, teachers, students, and staff are all offered information in English and Spanish to insure that proper technology manners are used, especially while on school computers.
